

Durasein

A Slam Dunk for YSU

Youngstown State Case Study

The Project
Youngstown State Case Study
Location Youngstown, Ohio
Completed 2025

- Material: DM1001 Arctic White
DM6006 Nocturne,& DM6001 Vitality Red

The Challenge

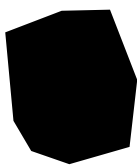

This Ohio university was looking to up its game in the men's basketball team locker room. They wanted to balance practical functions like storage space, security, moisture resistance, and durability with high-end aesthetics that would help the school compete in recruiting.

Materials

The designer selected Durasein Solid Surface, a non-porous surface that would stay fresher and cleaner than the old wood lockers. They chose Nocturne to build 16 custom lockers with built-in seats, drawers, and cabinets with biometric locks. Vitality Red and Arctic White recreate the team's logo on the lockers and ceiling, and stainless hooks, cup holders, and charging ports support each player's needs. A soffit build-out over the lockers provides room for players' names, and corner panels decorated with the team mascot hold flat-screen TVs.

The Result

The finished locker room elevates the team experience, scoring points by making players feel special and well supported while emphasizing the YSU brand. Coach Ethan Faulkner said, "It's a game changer for us. It's as nice as any locker-room I've been in in mid-major basketball. This is going to really help us in recruiting."

Durasein in Education

From branded color palettes to refined aesthetics, Durasein can deliver the looks today's students want. It's also durable, moisture- and scratch-resistant, and easy to clean, making it a winning choice for educational and athletic spaces from K-12 to higher ed.
